Standard Surgical Wash Prep

Standard Surgical Wash

Instructions for Surgical Wash:

- Get in the shower, wash face, hair, and groin like normal.
- Take Hibiclens wash and place on the clean sponge.
- Scrub from the neck down, avoiding the groin (you may need help with this because you will do front and back).
- Let the soap sit for 2 minutes then rinse off with water.
- **DO NOT WASH** with any other soap or cleaners afterward.
- Towel dry with a clean towel like normal.
- Use clean bed sheets.
